SECURITY PLAN SELF- ASSESSMENT

WHEN THINKING ABOUT YOUR CURRENT SOLUTION...

- ☐ Is it simple and fast to use? Is it accessible in an emergency?

- ☐ Does everyone have access to it at all times and anywhere on campus?

- ☐ Does it communicate clearly to the entire school community when a campus is in danger?

- ☐ Does it quickly communicate precise location information? Who needs help and where they are located?

- ☐ Does it address all types of emergencies, daily incidents and crises?
