# CENTEGIX®

10 Reasons CENTEGIX Safety Blueprint™ is the Best Choice for Dynamic Digital Maps

Mapping your School with Safety Blueprint™

Through Maryland HB0472, you can secure funding to give your district dynamic mapping capabilities. CENTEGIX Safety Blueprint, our industry-first, dynamic digital mapping solution gives your safety and facilities teams a comprehensive view of utilities, campus assets, IT security resources, evacuation points, and other user-defined information.

☑ *You own the maps and they are available for your use anytime.*

☑ *Maps are up-to-date and accurate.*

☑ *You don't have to pay someone else to update your map.*

☑ *Only one map is needed.*

☑ *Maps will work with CrisisAlert.*

☑ *Easily share your maps with other departments and with configurable permissions.*

☑ *Make your maps accessible digitally/electronically to other agencies.*

☑ *Maps will work with other safety and security systems.*

☑ *Changes to your maps are automatically sent to local responding agencies.*

☑ *There is no fee or special software needed to give Response Agencies and Emergency Management access to your maps.*

CENTEGIX Safety Blueprint™ is 100% compliant with **HB0472**.

Learn how Safety Blueprint™ can help you optimize incident response, safety planning and visitor management.
