

# 2025 Trends Report

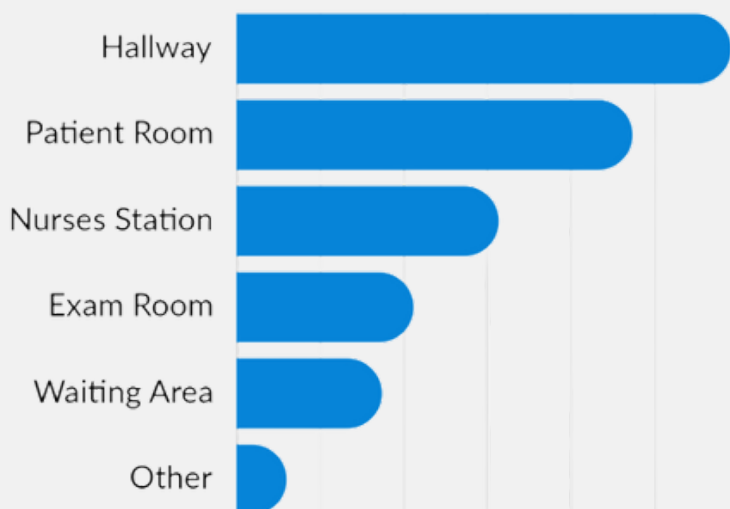

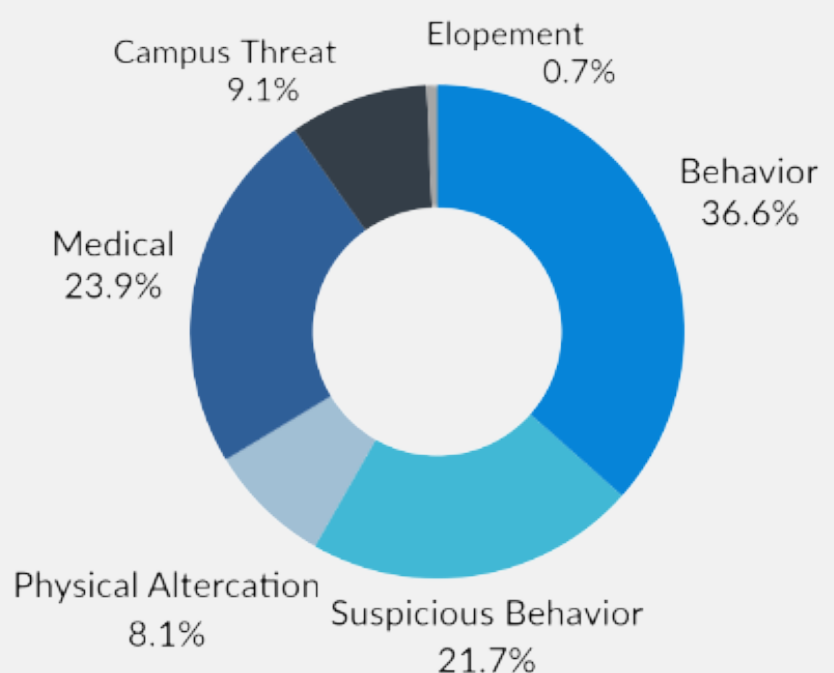

## Five Key Insights

### on Healthcare Safety

Any time a CrisisAlert™ user summons support with their duress badge, the incident is tracked, providing valuable workplace safety insights. The data below reflects key trends from these reported incidents.

**45% of Alerts**  
were aggressive  
behavior-related

*\*Physical or Verbal*

Top areas alerts  
were triggered:

- 1) Hallways
- 2) Patient Rooms
- 3) Nurses Stations

Behavior-related alerts were highest on  
**Fridays, Saturdays, & Wednesdays**

and between  
**1:00 PM & 3:00 PM**

**1 in 10 Alerts**  
were triggered for a  
campus-wide threat.
